

**3.2** Die Klägerin verlangt in ihrem Rechtsbegehrten 1 die Bezahlung von Fr. 13'538.“. Gemäss ihren Behauptungen schuldet ihr der Beklagte aber den effektiven Betrag von € 8'884.53. Die Umrechnung dieser Schuld in Schweizer Franken wurde von der Klägerin selber vorgenommen. Da die Alternativermächtigung von Art. 84 Abs. 2 OR nur für den Schuldner, nicht aber für den Gläubiger gilt, darf dieser bei einer Fremdwährungsschuld nicht auf Inlandswährung klagen (vgl. Peter Gauch / Walter R. Schluep / Jörg Schmid / Heinz Rey, Schweizerisches Obligationenrecht, Allgemeiner Teil, 2 Bde., 8. A., Zürich 2003, N 2345). Das klägerische Rechtsbegehrten ist deshalb entsprechend den Behauptungen der Klägerin auf € 8'884.53 umzudeuten.

Gestützt auf die von den Parteien geschlossenen Verträge ist der Beklagte gemäss Art. 53 CISG verpflichtet, den Betrag von insgesamt € 8'884.53 zu zahlen.

**4.** Die Klägerin macht Verzugszins von 15% seit dem 12.2.2003 geltend. Dazu ergibt sich Folgendes:

**4.1** Der Kaufpreis ist gemäss Art. 58 Abs. 1 und 3 i.V.m. Art. 69 CISG ohne besondere Aufforderung oder Einhaltung von Formalitäten zu zahlen, sobald der Verkäufer dem Käufer die Ware zur Verfügung gestellt und der Käufer Gelegenheit gehabt hat, sie zu untersuchen. Die Fälligkeit der Forderungen über € 1'202.14, € 1'74.40, € 98.05 und € 1'696.50 (insgesamt € 1'711.09) trat daher im vorliegenden Fall vor dem 12.2.2003 ein. Die Forderungen über € 448.44 und € 45,- (insgesamt € 493.44) wurden erst mit ihrer Lieferung am 17.2.2003 fällig. Für die Forderung von € 5'220.- ergibt sich schliesslich der 23.4.2003 als Fälligkeitstermin.

Im Anwendungsbereich des CISG bildet bereits die Nichtzahlung zum Fälligkeitstermin eine Pflichtverletzung, so dass die Verzinsungspflicht sofort mit der Fälligkeit einsetzt (Schlechtriem, Internationales UN-Kaufrecht, Tübingen 1996, N 319). Verzugszins ist daher grundsätzlich ab Fälligkeitstermin geschuldet. Die Klägerin verlangt auf dem Betrag von € 3'171.09 nur

Verzugszins ab dem 12.2.2003. Gestützt auf die prozessuale Dispositionsmaxime (§ 75 Abs. 2 ZPO) ist das Handelsgericht an diesen Zeitpunkt gebunden. Für den Betrag von € 493.44 ist hingegen erst ab dem 17.2.2003 und für den Betrag von € 5'220.- ab dem 23.4.2003 Verzugszins geschuldet.

**4.2** Die Höhe des Zinssatzes regelt das CISG nicht. Die Frage ist nach demjenigen nationalen Recht zu entscheiden, welches durch das internationale Privatrecht des Forumstaates bestimmt wird (BGE 4C.197/1998 vom 28.10.1998 E. 6 m.w.H. = [www.cisg-online.ch](http://www.cisg-online.ch) Nr. 413; Bacher in: Schlechtriem, Kommentar zum Einheitlichen UN-Kaufrecht, 3. A., München 2000, Art. 78 N 27 und 32). Gemäss Art. 118 Abs. 1 IPRG gilt für den Kauf beweglicher körperlicher Sachen das Haager Übereinkommen vom 15.6.1955 betreffend das auf internationale Kaufverträge über bewegliche körperliche Sachen anzuwendende Recht. Art. 3 Abs. 1 des Übereinkommens bestimmt, dass, sofern eine Erklärung der Parteien über das anzuwendende Recht fehlt, der Vertrag dem innerstaatlichen Recht des Landes untersteht, in dem der Verkäufer zu dem Zeitpunkt, an dem er die Bestellung empfängt, seinen gewöhnlichen Aufenthalt hat. Da die Klägerin als Verkäuferin ihren Sitz in Deutschland hat, ist die Höhe des Zinses nach deutschem Recht zu bestimmen.

Bei Handelsgeschäften bestimmt sich der massgebliche Zins grundsätzlich nach § 352 HGB. Diese Bestimmung ist überall dort anzuwenden, wo die Parteien eines Rechtsgeschäfts Kaufleute sind und das Geschäft in Ausübung ihres Betriebes oder Handelsgewerbes vorgenommen wurde (§ 343 Abs. 1 HGB). Dies ist vorliegend der Fall.

Den Parteien steht es nach deutschem Recht frei, einen höheren Verzugszinssatz als den gesetzlichen zu vereinbaren. Eine solche Vereinbarung haben die Parteien im vorliegenden Fall nicht getroffen. Es ist demgemäss auf die allgemeine Regel des deutschen Rechts über die Höhe des Verzugszinses zurückzugreifen.

The CISG-AC is a private initiative supported by the Institute of International Commercial Law at Pace University School of Law and the Centre for Commercial Law Studies, Queen Mary, University of London. The International Sales Convention Advisory Council (CISG-AC) is in place to support understanding of the United Nations Convention on Contracts for the International Sale of Goods (CISG) and the promotion and assistance in the uniform interpretation of the CISG. At its formative meeting in Paris in June 2001, Prof. Peter Schlechtriem of Freiburg University, Germany, was elected Chair of the CISG-AC for

### Opinion on Article 49 (1)(a)

- 1. In determining whether there is a fundamental breach in case of non-conformity of the goods giving the buyer the right to avoid the contract according to Art 49(1)(a) CISG, regard is to be given to the terms of the contract.**
- 2. If the contract does not make clear what amounts to a fundamental breach, regard is to be given in particular to the purpose for which the goods are bought.**
- 3. There is no fundamental breach where the non-conformity can be remedied either by the seller or the buyer without unreasonable inconvenience to the buyer or delay inconsistent with the weight accorded to the time of performance.**
- 4. Additional costs or inconvenience resulting from avoidance do not influence per se whether there is a fundamental breach.**
- 5. The issue of avoidance in case of non-conforming accompanying documents such as insurance policies, certificates etc., must be decided by resorting to the criteria set forth in 1. to 4.**
- 6. In the case of documentary sales, there is no fundamental breach if the seller can remedy the non-conformity of the documents consistently with the weight accorded to the time of performance.**
- 7. In the commodity trade, in general, there is a fundamental breach if there is no timely delivery of conforming documents.**
- 8. If the non-conformity does not amount to a fundamental breach, the buyer still has a right to withhold payment and to refuse to take delivery if reasonable under the circumstances.**

### Comments<sup>3</sup>

#### I. Introduction

**1.1** Rules on avoidance of contract in case of non-conforming goods have to take into account three different interests:<sup>4</sup> The buyer is interested in a low threshold for avoidance, while the seller's interest is in a high threshold for avoidance. Economic reasons such as costs and risk of transportation or storage may also play a role. These conflicting interests have to be balanced.

**1.2** There have been great differences of opinion among domestic legal systems concerning the question of under which circumstances the buyer may avoid the contract in case of non-conforming goods or documents. Art 49(1)(a) CISG provides that avoidance is possible "if the failure by the seller to perform any of his obligations under the contract or this Convention amounts to a fundamental breach of contract." According to Art 25 CISG, a breach is fundamental "if it results in such detriment to the [buyer] as substantially to deprive him of what he is entitled to expect under the contract, unless the [seller] did not foresee and a reasonable person of the same kind in the same circumstances would not have foreseen such a result."

**1.3** Reference to case law shows that the interpretation of the notion of fundamental breach in cases of non-conforming goods by national courts and arbitration tribunals differs considerably even within one single legal system.

**1.4** Special problems arise with respect to non-conforming documents and the commodity trade in particular. Special rules have been established by the International Chamber of Commerce. Thus, the Incoterms 2000<sup>5</sup> contain detailed rules governing the obligations of the seller to provide for documents,<sup>6</sup> and the buyer to accept them,<sup>7</sup> respectively. Such rules are widely incorporated into international contracts.<sup>8</sup>

a three-year term. Dr. Loukas A. Mistelis of the Centre for Commercial Studies, Queen Mary, was elected Secretary. The CISG-AC has consisted of: Prof. Emeritus Eric E. Bergsten, Pace University; Prof. Michael Joachim Bonell, University of Rome La Sapienza; Prof. E. Allan Farnsworth, Columbia University School of Law; Prof. Alejandro M. Garro, Columbia University School of Law; Prof. Sir Roy M. Goode, Oxford; Prof. Sergei N. Lebedev, Maritime Arbitration Commission of the Chamber of Commerce and Industry of the Russian Federation; Prof. Jan Ramberg, Professor of Private Law, University of Stockholm, Faculty of Law; Rector, Graduate School of Law, Riga, Latvia; Prof. Peter Schlechtriem, Freiburg University; Prof. Hiroo Sono, Faculty of Law, Hokkaido University; Prof. Claude Witz, Universität des Saarlandes and Strasbourg University. Members of the Council are elected by the Council. At its meeting in Rome in June 2003, the CISG-AC elected as additional members, Prof. Pilar Perales Viscasillas, Universidad Carlos III de Madrid, and Prof. Ingeborg Schwenger, University of Basel. At its meeting in Madrid in October 2004, Professor Jan Ramberg was elected Chair of the CISG-AC for a three year term.

<sup>2</sup> This opinion is a response to a request by the Chair of the International Sales Committee of the International Law and Practice Section of the New York State Bar Association. The question referred to the Council was:

"Under what circumstances may the buyer avoid the contract under Article 49 CISG in case of a non-conforming tender? If the parties to a contract do not derogate from or vary the effect of any of the provisions of the CISG, are there circumstances in which the CISG would permit avoidance if the goods or the tender of delivery fail in any respect to conform to the contract."

This opinion is focusing on the most important issues of non-conforming tender, namely non-conforming goods and documents.

## 2. Domestic Legal Systems

**2.1** Civil law systems were originally based upon the Roman sales law rule that, in the case of defects in the quality of the goods, the buyer had the right either to demand reduction of the purchase price (*actio quanti minoris*) or to avoid<sup>9</sup> the contract (*actio redhibitoria*).<sup>10</sup> However, modern statutes, such as the German Statute on Modernization of the Law of Obligations,<sup>11</sup> the Scandinavian Sales Laws<sup>12</sup> or the Netherlands Civil Code,<sup>13</sup> are oriented towards the CISG and apply the notion of fundamental breach or similar key concepts for the avoidance of the contract. The same is true for other international uniform law instruments, such as the UNIDROIT Principles<sup>14</sup> and the Principles of European Contract Law.<sup>15</sup>

**2.2** In contrast to this, common law sales law was based upon the idea that the buyer could only avoid (terminate) the contract if the non-conformity is sufficiently serious.<sup>16</sup> This restriction, however, only applies to accepted goods,<sup>17</sup> thus making “acceptance” or its revocation key notions. Before there has been acceptance, the so-called “perfect tender rule”<sup>18</sup> applies, giving the buyer the right to reject the goods if they do not conform to the contract in any respect. However, during the past decades the perfect tender rule itself has been subject to several restrictive modifications. Thus, s.15A Sale of Goods Act, inserted by the Sale and Supply of Goods Act 1994, states that if the buyer does not deal as a consumer, the breach may not be treated as a breach of condition if the breach was so slight that it would be unreasonable for the buyer to reject the goods. Similarly, some US courts have limited the perfect tender rule by applying the good faith principle,<sup>19</sup> especially in cases of a rightful and effective cure<sup>20</sup> by the seller in accordance with § 2-508 UCC.<sup>21</sup>

<sup>9</sup> Domestic legal systems use many different notions, such as termination, nullification, repudiation, cancellation, rescission or avoidance. This opinion always uses the expression “avoidance” as this reflects the terminology of the CISG, see, e.g., in Arts 49, 75, 76(1) CISG.

<sup>10</sup> Cf. Germany: former § 462 Bürgerliches Gesetzbuch (BGB) (in force until 31 December 2001); France: Art 1644 Code Civil; Switzerland: Art 205 Code of Obligations. But see Austria: Art 932 Allgemeines Bürgerliches Gesetzbuch (ABGB), only giving a right to avoid the contract in cases where repair is not feasible and a proper use is not possible. For details see Rabel, Recht des Warenkaufs, Volume 2, Tübingen 1958, p.232 et seq.

<sup>14</sup> See Article 7.3.1 UNIDROIT Principles of International Commercial Contracts 2004.

<sup>15</sup> See Article 4.303 Principles of European Contract Law.

<sup>16</sup> Under English Law, avoidance depends upon the question whether there was a breach of condition or a mere breach of warranty. See for the distinction between “condition” and “warranty”: *Cehave N.V. v. Bremer Handelsgesellschaft m.b.H. (The Hansa Nord)*, 1 Q.B. 44 (C.A.), 1976; see also s.11, s.14 and s.15A of the Sale of Goods Act 1994. According to § 2-608(1) Uniform Commercial Code (UCC), the buyer may revoke acceptance if acceptance of a lot or commercial unit whose

non-conformity substantially impairs its value to the buyer if the buyer has accepted it. For an overview of the system of avoidance in common law systems in general see Treitel, Remedies for Breach of Contract, Oxford 1988, Sections 259, 260.

<sup>17</sup> Under English law, in s.35(1) Sale of Goods Act as amended by the Sale and Supply of Goods Act 1994, it is laid down that the buyer is deemed to have accepted the goods when he intimates to the seller that he has accepted them, or when the goods have been delivered to him and he does any act in relation to them which is inconsistent with the ownership of the seller. For details see Benjamin's Sale of Goods, 6<sup>th</sup> ed., London 2002, 12-044 et seq. In the UCC, *acceptance* is dealt with in § 2-606. *Acceptance* occurs in three different ways: according to § 2-606(1)(a) UCC, the first possibility is that the buyer, after a reasonable possibility to inspect the goods, signifies to the seller that the goods are conforming or that he will take or retain them in spite of their non-conformity. Pursuant to § 2-606(1)(b) UCC, *acceptance* also occurs, if the buyer fails to make effective rejection after the buyer had a reasonable opportunity to inspect the goods. Finally, *acceptance* occurs if, according to § 2-606(1)(c) UCC, “the buyer does any act inconsistent with the seller's ownership”. Here, the buyer's knowledge and behavior is decisive; for illustrations see WHITE/SUMMERS, Uniform Commercial Code, 5<sup>th</sup> ed., St. Paul 2000, § 8-2.

<sup>18</sup> See § 2-601(a) UCC, s. 35 Sale of Goods Act 1994.

<sup>19</sup> See § 1-203 UCC. See also Treitel who points out, “[t]his so-called perfect tender rule [particularly as recited in UCC 2-601] at first sight gives rise to a very wide power to terminate regardless of the seriousness of the nonconformity. But the appearance is deceptive as the requirement of seriousness is re-introduced by a number of other provisions which must be read together with UCC 2-601.” Treitel, op. cit. (footnote 16) Section 269. For other relevant provisions of the UCC, see ALBERT H. KRITZER, Guide to Practical Applications of the CISG, Deventer/Boston 1990, Suppl. 4 (February 1993), p. 206.

<sup>20</sup> Such a cure can be the delivery of conforming replacement goods, repair or even price adjustments sufficient to compensate the buyer and reduction in the price. See for replacement goods: T.W. Oil, Inc. v. Consolidated Edison Co., US Court of Appeals (N.Y.), 15 December 1982, 1982 N.Y. LEXIS 3846; DEL DUCA/GUTTMAN/SQUILLANTE, Problems and materials on sales under the Uniform Commercial Code and the Convention on International Sale of Goods, Cincinnati 1993, p. 359; Calamari & Perillo, Contracts, 3rd ed., St. Paul 1988, § 11-20, p. 468. See for repair: Wilson v. Scampoli, US Court of Appeals (D.C.), 2 May 1967, 1967 D.C. App. LEXIS 156. For price adjustments and reduction: WHITE/SUMMERS, op. cit. (footnote 17), § 8-6, p. 338; Oral-X Corp. v. Farnam Cos., Inc., US Court of Appeals (10<sup>th</sup> Circuit), 26 April 1991, 1991 U.S. App. LEXIS 7377.

<sup>21</sup> In the course of the recent revision of the UCC there have also been discussions in the Study Group as to whether to replace the perfect tender rule with the requirement that would permit rejection only if a non-conformity “substantially impairs the value of the performance to the buyer”, see the draft of § 2-501 UCC as of July 1996 <http://www.law.upenn.edu/bll/ulc/ucc2/ucc2sale.pdf>. However, ultimately a majority of the Study Group recommended that the perfect tender rule be maintained as the standard, see § 2-601 UCC Draft 2002. For the whole discussion see: Lawrence, Symposium: The Revision of Article 2 of the Uniform Commercial Code: Appropriate Standards for a Buyer's Refusal to Keep Goods Tendered by a Seller, 35 Wm and Mary L. Rev. 1635, 1637 et seq. (1994).

### 3. Drafting History

**3.1** The basic concept of fundamental breach was already present in Art 10 ULIS<sup>22</sup> and was not questioned during the preparatory work for the CISG. The function of this concept in the case of tender or delivery of non-conforming goods was to avoid causing these goods to be returned, which would result in considerable economic detriment.

**3.2** Although the concept of fundamental breach itself was unquestioned, the preconditions for the breach being fundamental and the necessity to declare the contract avoided remained in dispute until the Vienna Conference. Ultimately, it was decided that the seriousness of the breach should be determined by reference to the interests of the promisee as actually laid down and circumscribed by the contract.<sup>23</sup> Concerning the avoidance of the contract, the CISG clearly deviates from ULIS. Under Art 44(2) ULIS, the buyer could fix an additional time to remedy any breach in cases, where the non-conformity of the goods or the delay in delivering conforming goods did not yet amount to a fundamental breach under Art 43 ULIS. The fruitless elapse of such a „Nachfrist“ always enabled the buyer to avoid the contract, regardless of the fundamentality of the original defect in performance. Art 49(1)(b) CISG, in contrast, limits the possibility for the buyer to fix an additional period of time to cases of non-delivery, thus excluding this possibility for non-conforming goods.<sup>24</sup> Still, also under CISG the weight the contract accords to the time of performance always has to be kept in mind when defining a fundamental breach.<sup>25</sup>

**3.3** The history of the CISG clearly documents that there is no equivalent to the original perfect tender rule in Anglo-American law. Although its wording could be misunderstood,<sup>26</sup> Art 86 CISG in itself does not give the buyer a general right to reject any non-conforming tender.<sup>27</sup> Rather, under the CISG such a right is limited to certain situations: Art 52 CISG allows the buyer to refuse to take delivery only if the seller delivers the goods before the date fixed or if he delivers a quantity of goods greater than that provided for in the contract. In all other cases of non-conforming tender, the requirement for rejection is a fundamental breach.

### 4. Interpretation

#### a) General Remarks

**4.1** A fundamental breach of contract giving the buyer the right to avoid the contract or to ask for substitute goods presupposes that the defect has a serious importance to the buyer. In considering avoidance, one has to take into account whether the buyer can be required to retain the goods because he can be adequately compensated by damages or a price reduction. The substantiality of the detriment to the buyer may be ascertained by having regard to the terms of the contract, the purpose for which the goods are bought and finally, by the question of whether it is possible to remedy the defect. In any case, the question of time has to be given due consideration.

#### aa) Terms of The Contract

**4.2** First and foremost, it is up to the parties to stipulate what they consider to be of the essence of the contract.<sup>28</sup> Whether or not a contractual agreement is of the essence is a matter of interpretation under Art 8 CISG. In doing so, several courts held a breach to be fundamental where the parties

had explicitly agreed on certain central features of the goods, such as unsweetened apple juice concentrate,<sup>29</sup> the thickness of a roll of aluminium<sup>30</sup> or soy protein products that have not been genetically modified.<sup>31</sup> If the parties act accordingly, there is also no room for the seller to argue that he did not foresee the detriment to the buyer, if the goods do not conform to such express terms.

#### bb) Purpose for Which Goods are Bought

**4.3** If the contract itself does not make clear what amounts to a fundamental breach, one of the central questions is for what purpose the goods are bought. Where the buyer wants to use the goods himself, such as machinery for processing, globes for marketing purposes<sup>32</sup> or compressors for use in air-conditioners<sup>33</sup>, in the usual case it cannot be decisive whether the goods could be resold even at a discount price. Rather, the decisive factor is whether the goods are improper for the use intended by the buyer. However, regard is to be had to the question whether the buyer is able to make use of the goods or to process them differently without unreasonable expenditure.<sup>34</sup> Where the buyer himself is in the resale business, the issue of a potential resalability becomes relevant. There is also a fundamental breach here if the goods are not resalable at all, e.g., food not complying with national health regulations.<sup>35</sup> If the

But see: GERMANY, BGH, 8 March 1995, CISG-online 144, mussels still good for consumption because there was no health risk.

defect of the goods does not hinder their resalability, still, it cannot be said that there is never a fundamental breach. The question then is whether resale can reasonably be expected from the individual buyer in his normal course of business.<sup>36</sup> A wholesaler with broader access to markets in the business concerned has more opportunities to resell the goods than a retailer. A retailer cannot be expected to resell the goods at a discount price if, by doing so, he would be likely to damage his own reputation.<sup>37</sup> In determining the likelihood of this, regard is to be had to the retailer's specific target group of customers.<sup>38</sup> In all these cases, due regard should be had to the possibilities of the seller himself to dispose of the goods, thus balancing the possibilities and interests of the buyer and seller.

#### *cc) Possibility of Repair or Replacement*

**4.4** Though the objective essential nature of the defect is always a necessary condition to establish a fundamental breach of contract, it will not always be sufficient. In cases where the non-conformity of the goods can be remedied by the seller – e.g., by repairing the goods<sup>39</sup> or delivering substitute or missing goods<sup>40</sup> – without causing unreasonable delay or inconvenience to the buyer, there is not yet a fundamental breach.<sup>41</sup> Here, due regard is to be given to the purposes for which the buyer needs the goods. If timely delivery of conforming goods is of the essence of the contract, repair or replacement usually will lead to unreasonable delay.<sup>42</sup> In finding such unreasonableness the same criteria have to be applied as in case of late delivery; namely whether exceeding a time limit – either a date or the end of a period of time – amounts to a fundamental breach. Furthermore, the buyer should not be expected to accept cure by the seller if the basis of trust for the contract has been destroyed, e.g., due to the seller's deceitful behaviour.<sup>43</sup> When the seller either refuses to remedy the defect,<sup>44</sup> simply fails to react, or if the defect cannot be remedied by a reasonable number of attempts within a reasonable time,<sup>45</sup> then a fundamental breach will also be deemed to have occurred.<sup>46</sup>

**4.5** If in a given case the buyer is in a better position than the seller to have the goods repaired himself or by a third party, to buy missing parts<sup>47</sup> or – in case of a defect in quantity – to buy the missing amount of goods, he is obliged to do so and may not declare the contract avoided for fundamental breach.

#### *dd) Additional Costs or Inconvenience Resulting from Avoidance*

**4.6** It may be questionable as to whether the fact that the goods are still on the premises of the seller – e.g., in case of delivery EXW, or if the buyer realizes the non-conformity before the shipping of the goods – or are stored in a warehouse affects the notion of fundamental breach because the goods do not have to be transported back to the seller in case of avoidance of the contract. The idea to prevent commercially unreasonable costs for the transport of the goods, might advocate lowering or raising the prerequisites for avoidance, respectively. However, even if the seller does not have to transport the goods back, he may face storage costs exceeding the costs for transportation.<sup>48</sup> Furthermore, in cases where the goods have already been shipped, they do not necessarily have to be transported back to the seller if the buyer avoids the contract; the seller may be able to redirect them to another buyer or sell them at the place where they are located. Thus it would be necessary to decide on an approach, independent from the location of the goods, in order to assess the costs that the avoidance of the contract would cause to the seller. This, however, would lead to unpredictable results.

#### *b) Non-conforming Documents*

**4.7** In the first place, one has to distinguish between two different situations: First, there are various documents that usually accompany a contract of sale, e.g., insurance policies, certificates of origin, certificates of inspections, custom clearance certificates, etc. Second, a contract of sale can require delivery by the handing over of documents of title, e.g., bills of lading. Other documents such as dock warrants, warehouse receipts or their respective electronic equivalents can also be required.

#### *aa) Accompanying Documents*

**4.8** In the case of accompanying documents, the question as to whether the buyer may avoid the contract must be decided by resorting to the general mechanisms of the Convention already established for determining a fundamental breach.<sup>49</sup>

**4.9** If the documents are delivered but do not conform to the contract description, this is to be treated like a defect in quality. Thus, initially, what is decisive is whether the defective documents limit the buyer in using the goods according to his

OLG Hamburg, 28 February 1997, CISG-online 261, has argued that a C.I.F. contract has to be understood as a fixed term contract. But see: ICC International Court of Arbitration, 7645 of 1995, CISG-online 844, the Incoterms clauses C.F.R. do not, however, specify that abiding to the time limit is an obligation of especially essential importance.

plans, e.g., to resell them. If they do not, a fundamental breach can never be assumed. If they do limit him, the seriousness of the defect depends upon whether the buyer can still use the goods in a reasonable way even with non-conforming documents, or – if not – whether the non-conformity of the documents can be remedied in time either by the seller or by the buyer himself.<sup>50</sup>

**4.10** The case of missing accompanying documents is to be treated like a defect in quantity and not as an equivalent to non-delivery of the goods. That means that also in this case, a fundamental breach of contract has to be established on the individual facts of the case, thus enabling the buyer to avoid the contract only in accordance with Art 49(1)(a) CISG; Art 49(1)(b) CISG is not applicable.

#### bb) Documentary Sales

**4.11** Nowadays, a majority of international sales contracts incorporate the Incoterms of the ICC. A number of courts and scholars already hold that they have become a usage in international trade within the meaning of Art 9(2) CISG, thereby complementing the rules of the Convention.<sup>51</sup> Except for EXW, all Incoterms 2000 clauses contain the seller's obligation to deliver or to assist the buyer to obtain certain documents of title.<sup>52</sup> Thus, in turn, all such contracts can be referred to as documentary sales contracts.

**4.12** According to Art 1(1) CISG, the Convention applies to contracts of sale of goods. However, there cannot be any doubt that documentary sales of goods shall be covered by the Convention as well, "though in some legal systems such sales may be characterized as sales of commercial paper."<sup>53</sup> This even holds true for so called "string transactions", i.e., when documents are sold and transferred several times until the final purchaser takes physical delivery of the goods.<sup>54</sup>

**4.13** In documentary sales contracts, the tender of "clean" documents is of the essence of the contract. Thus, B8 of all Incoterms 2000 clauses (except for EXW) provides that the buyer must accept the transport document and/or other evidence of delivery in accordance with the seller's obligation. This implies the buyer's right to reject any tender of non-conforming documents irrespective of the goods' actual conformity or non-conformity with the contract.<sup>55</sup>

**4.14** However, the seller may remedy any lack of conformity in the documents. If, for example, the bill of lading is "unclean" because it refers to damage to the goods or their packaging, the seller may tender a new bill of lading relating to other goods, which does not contain such a reservation. If the bill of lading indicates a late loading date, the seller may subsequently purchase goods "afloat" which were loaded on time and tender to the buyer the bill of lading issued for those goods. However, again, this is only possible if it does not cause unreasonable inconvenience to the buyer or delay inconsistent with the weight accorded to the time of performance.<sup>56</sup>

**4.15** In a majority of international sales contracts, the parties stipulate that the purchase price is to be paid by means of documentary credit including standby letter of credit.<sup>57</sup> In this case, the UCP 500<sup>58</sup> usually apply, either by express reference or, as is frequently held, as an international trade usage<sup>59</sup> within the meaning of Art 9(2) CISG.<sup>60</sup>

**4.16** Art 20 et seq. UCP 500 set out, in detail, under what circumstances the documents are to be accepted as clean, or may be rejected, respectively. However, this question concerns the relationship between the seller and the bank, which is not a subject of this Opinion. Suffice to say, that payment by means

of documentary credit as such does not necessarily influence the possibility of the buyer to avoid the contract in case of non-conforming documents.

#### c) Commodity Trade

**4.17** In those parts of the commodity market, where string transactions prevail and/or prices are subject to considerable fluctuations,<sup>61</sup> special standards have to be applied in determining whether there is a fundamental breach. There, timely delivery by the handing over of clean documents – that can be resold in the normal course of business – is always of the essence of the contract.<sup>62</sup> If the parties do not stipulate this importance by respective clauses, this can be derived from the circumstances by an interpretation of the contract pursuant to Art 8(2), (3) CISG.<sup>63</sup> As a result, in practice, the seller's possibility to remedy a defect in the documents normally does not exist in the commodity trade. Thus, in this specific trade branch the solution under the CISG is quite similar to that under the perfect tender rule. However, the last buyer, who

<sup>50</sup> See for example: GERMANY, BGH, 3 April 1996, CISG-online 135, BGHZ 132, 290 et seq. In this case, seller provided for a non-conforming certificate of origin and a non-conforming certificate of analysis. The court held that the seller could easily get a new certificate of origin from the local Chamber of Commerce and that the certificate made by buyer's expert was a valid new certificate of analysis.

actually takes the goods, may not avoid the contract merely by relying on the non-conformity of the documents.

*d) Buyer's Right to Withhold Performance*

**4.18** In non-documentary sales cases, if the non-conformity of the tendered goods does not amount to a fundamental breach, as a general rule, the buyer is obliged to accept the goods as a right to avoid the contract does not exist according to Art 49(1)(a) CISG. However, in this situation, a right to withhold performance can be advocated independent of the regular legal remedies. The buyer can at least temporarily refuse payment and even suspend his obligation to take delivery until he has decided on his next courses of action.<sup>64</sup>

**4.19** The CISG recognizes a right to withhold performance in several provisions. Art 58 CISG embodies the principle of "payment against delivery" as concurrent conditions. According to Art 71 CISG, a party may also suspend its own performance if performance by the other party is insecure. Further rights to withhold performance are contained in Arts 81(2) second sentence CISG, 85 second sentence and 86(1) second sentence CISG. The prevailing literature derives a general principle of a right to withhold performance according to Art 7(2) CISG from such provisions.<sup>65</sup>

**4.20** As an initial consequence of that general right, the buyer may withhold the payment of the purchase price; however, this right must be limited to the extent of the non-conformity and the expected detriment. If the extent of the non-conformity cannot be easily ascertained, the buyer should be given the right to withhold the whole purchase price for a reasonable time that is necessary to inspect the goods and to estimate the extent of the expected detriment.

**4.21** Besides the possibility to withhold the purchase price, the general right to withhold performance allows the buyer to suspend his obligation to accept delivery within the meaning of Arts 53, 60 CISG for a reasonable time.<sup>66</sup> This, however, does not mean that the buyer is not obliged to physically take possession of the goods and preserve them according to Art 86 CISG. The practical consequence of the buyer's right to refuse to take delivery is only important where the risk of loss has not yet passed pursuant to Arts 67 or 68 CISG. The risk then passes according to Art 69(1) CISG when the buyer takes over the goods, which implies an acceptance – within the meaning of taking delivery – by the buyer.
